What is the Department of Boards and Councils?

If you are considering starting a board or council to participate in the governance of Catholic education, we can help. We can also assist in reenergizing or restructuring a board that is not functioning effectively. The National Catholic Educational Association's Department of Boards and Councils is dedicated to supporting all who share in the governance of Catholic education through these as well as many other services and publications.

Our staff can contract to come to your site and consult with lead agents to determine a process, and then meet with the appropriate leaders to assist in formulating and implementing a plan that will best meet the needs and conditions of your particular situation.
